

CHRIS'S MESSAGE APRIL 2026

Greetings Everyone!

Our next **Roundtown UFO Society meeting** will be held later this week, Thursday, **April 9 @6:00 PM EDT** at the American Legion Post #134 in the banquet room (the banquet room door is on the side of the building; it is well marked).

Address: 23363 US-23 S, Circleville, OH 43113

Bring your friends....bring your family!

We discuss numerous anomalous topics....UFOs/UAP/USOs, cryptids, strange phenomenon, etc. Attendees are welcome to share experiences if desired but it is completely voluntary....no pressure.

For our remote RUFOS members, we're planning to offer participation using zoom.

Here's the zoom meeting invitation link if you would like to join remotely:

Topic: RUFOS Zoom Meeting

Join Zoom Meeting using the following link then follow the instructions:

Meeting ID: 829 7433 4935

Passcode: 284606

If you would like to become a member? It's free....just let me know!

Does the formatting of this email look correct??

Please let me know if it looks odd with misalignments or bizarre bullet list info scrolling downward. It seems very inconsistent and occurring across a number of mail servers. I'm trying to figure it out.

This month we may have a specific block of time allocated for a presentation but we sure have plenty to discuss even if it is a freeform meeting!

Do you have any topics of particular interest you would like to know more about and discuss at future meetings?

Here are a few topics I'm sure we'll cover:

- "S4: The Bob Lazaar Story" and related interviews
- David Paulides new documentary
- Congressional interviews regarding UFO/UAP/NHI/USO topics and related reactions....many since March meeting!
- Steven Spielberg's upcoming release of "Disclosure Day"
- Independent confirmation of Dr. Beatrice Villaroel's VASCO project published paper results
- Is Trump planning a UFO Disclosure event including a commemorative coin??
- Oddly linked recent (and historical?) clusters of vanishing people
- Drones, drones and more drones
- 3I/ATLAS
- Neural computing bizarreness
- And more!
