

## Chris' Message July 11, 2023

Greetings everyone.....

It's been one incredible month in the realm of ufology. There are so many articles, positive and negative, so many developments that it's really difficult to keep up with current related events.

I've tried to include a few of the most recent and relevant below. **Also, Pete Hartinger has had 3 different persons witness unknown aerial objects in the Ashville/Circleville in the past 48 hours; Pete himself was witness to one of these objects.**

We'll discuss these and many others at our monthly meeting. And on that note, here's our friendly reminder:

**JULY Roundtown UFO society meeting will take place this coming Thursday, July 13, 6:00 PM EDT at the American Legion Post #134 in Circleville.**

The address is: The address is: 23363 US-23 S, Circleville, OH 43113  
Please feel free to join us and to bring guests!

Don't forget to subscribe to the Roundtown UFO Society twitter and FB feed if you're on social media. Updates can also be found the [www.roundtownufosociety.com](http://www.roundtownufosociety.com) website!

**For our remote RUFOS members, we'll offer our next hybrid meeting using zoom. Last month went pretty well so we'll do it again.....**

Here's the zoom meeting invitation link if you would like to join us remotely:

(This is the same RUFOS zoom meeting invitation we'll use on an ongoing basis so you might want to save the invitation for future meetings as well.)

I'll try to start the link about 15 minutes before the meeting formally begins.

**Our members have received this update and message via email and can join using the link provided on it.**

## IMPORTANT ITEMS OF INTEREST:

**ARE ANY RUFOS MEMBERS INTERESTED IN A FREE TELESCOPE???**

A kind person, Nancy Johnson, recently donated a telescope to RUFOS with the thought that someone in our group might like to use it for sky watching. It is a home built telescope using a “Stargazer Steve 6-Inch Deluxe Reflector Kit”. It came with an assembly manual and a stand.; we were told that it might have a broken lens but I’m not sure. The manual has a copyright date of 1998 by a person named Steve Dodson. This telescope doesn’t look like the 6” telescope on the <https://stargazersteve.com/> website but I’m presuming it must be similar.

**Are you interested?? Send me an email, a text or give me a call ASAP. First interested party takes it.**

This is for local members only. I do NOT want to try to pack/ship this item as it is large, awkward and appears as though it might be fragile.

If you would like to pick it up from the American Legion the night of the meeting, we’ll be happy to have it go to a good home.

If we don’t have any folks interested in the telescope, it will be donated to a person involved in a local amateur astronomy interest group.

We would like to properly thank Nancy after the telescope has reached it’s next destination.

## **PLEASE CONSIDER A DONATION TO THE NATIONAL UFO HISTORICAL RECORDS CENTER:**

This is the site dedicated to the major expansion of David Marler's UFO record archives in Albuquerque, NM that he started, and then expanded, in his home. As the need to preserve historical records on this subject material has become glaringly apparent, the volume of records that have been amassed over the years far exceeds David's ability to house in his personal space. This is the project to assure that these records have a permanent home both in hard copy and online form. Every donation no matter the value will help this effort!!

Website: <https://nufohrc.org/>

The Debrief related article: <https://thedebrief.org/nations-largest-center-for-historical-records-on-ufos-to-be-established-in-new-mexico/>

## **A GREAT SOURCE OF CURRENT PHENOMENOLOGY NEWS:**

If you're interested in current news in the realms of the weird, strange and unexpected, this is a site you will want to check everyday. This site has a facebook presence also; not sure about other social media platforms. Many great topics and genres are covered. You'll want to check it regularly though as the site states that the stories are not

archived. And that's why we have the web "wayback" machine.

## **WANT TO LEARN MORE ABOUT ALTERNATIVE PROPULSION THEORIES AND EXPERIMENTAL RESEARCH UNDERWAY?**

Tim Ventura does a great job of bringing forward persons to discuss many areas on this topic. He runs free monthly open conference calls on the subject; each call features different experts.
