We are in need of volunteers, vendors, artists for the 2023 MUFON Symposium in Cincinnati/Covington August 24-27, 2023. If you're interested and/or know folks who may be, please let me know.

Shared from our RUFOS member [Kathleen Covalt](#): On May 19, 2022 a Bill was introduced into the NJ State Legislature to establish a scholarship program for graduate students and postdoctoral researchers within the State of NJ who are studying unidentified aerial phenomenon (UAP) and signatures of extraterrestrial technological civilizations (ETCs). https://pub.njleg.state.nj.us/Bills/2022/A4500/4060_I1.PDF
Kathleen has a number of online events coming up and I'll share those starting in our September mailings!

I've attached an excel spreadsheet to the email with a list of numerous websites, phone apps that are useful for various aspects of UAP/UFO investigations that were recommended in various presentations during the 2022 MUFON Symposium in Denver. Take a look at the list....there are a TON of useful information in there. I think we may be able to post this spreadsheet on the RUFOS website too. I'll look for

Michael's help with that.

We expect to be able to start hybrid meetings with in-person and online participants via zoom at the October meeting. We've hit a milestone of being able to get the minimum set of components in the overall A/V setup work properly and we're running a test tomorrow. Wish us luck and hopefully see you Thursday!
