

CHRIS'S MESSAGE

OCTOBER 10, 2024

Greetings Everyone!

Our next **Roundtown UFO Society meeting will be held on Thursday, October 10.....**but this one will be a little different!

We're having our **annual RUFOS skywatch on this particular evening at Canal Park** just outside of Circleville.

The address for Canal Park is: 23352 Canal Road, Circleville OH 43113

It's just about a mile outside of town and easy to find.

We'll start the gathering about 6:30-??? with a very abbreviated meeting followed by food and

comradery.....hopefully under a clear sky.

(It's absolutely ok to get there earlier if desired and we have permission to use the park that evening after dark. Sunset that evening will be 6:59 PM EDT with a new moon.)

Bring a chair, a beverage and a food item to share if you can! (But not required of course....we know it's hard for folks with mobility issues).

(Dan and I will bring plates, plasticware, napkins, garbage bags and some goodies to share.)

Because this is an outdoor meeting, we won't have connectivity or equipment to run an outdoor meeting for October but will be back to holding hybrid in-person & remote meetings for the month of November.

If the weather isn't tolerable for an outdoor gathering, we'll go to our normal gathering spot at the American Legion post #134.

I'm keeping this email pretty short but I'll mention a couple of items of recent interest:

First, mark your calendar for November 13. That's the date the next UAP congressional open hearing is stated will occur. This should be a good one! There is no specific time yet stated for the hearing but keep your ear to the internet for further information.

Senate Armed Services Committee UAP related hearing has been pushed out until after the election but Senator Gillibrand is still stating that it will occur in November.

The proposed 2024 NDAA UAP amendments appears to have failed at this moment although there is a tiny glimmer of hope that it might be resurrected later in the NDAA process. My understanding is that this is primarily a procedural issue for this particular version of the NDAA couple of particular less significant UFO/UAP related items remain in the 2024 proposed legislation. Here are a couple of sources for more information:

Another UFO/UAP hit piece identified below. I'm presuming this is another strategic pre-bunking piece that was put out specifically to try to tamp down interest (once again) preceding the upcoming hearing. This piece truly infuriating the way it is written. It's yet another opinion hit piece being put out as presumed "fact". Let's call it by it's real description....another steaming pile of hooey by these persons who have no credibility in this field. How on earth did Scientific American accept an article of this type????
