### **A couple of important notes:**

#### **Daily and weekly current developments:**

It's almost impossible for me to keep up with the enormous number of daily developments that are occurring in the ufology realm as of late.

However, there are some folks out there who are doing a GREAT job of summarizing the most recent developments. I'm going to refer to their respective sites.

If you would like to keep up on the latest, PLEASE definitely read the sites and look at the links included:

First and foremost covering the wider realm of developments in phenomenology, ufology and related scientific developments, The Anomalist website is updated almost daily. Read often and keep the web wayback machine handy as there are no archives of the site

## [THE ANOMALIST: World News on UFOs, Bigfoot, the Paranormal, and Other Mysteries at the Edge of Science](https://anomalist.com/)

The Anomalist is a daily review of world news on maverick science, unexplained mysteries, unorthodox theories, and unexpected discoveries.

And recently, I discovered that there is a website where the originator is creating a weekly synopsis of UFO/UAP/USO related updates. It is called Disclosure Diaries and you can subscribe free or offer a donation.

## [Disclosure Diaries](https://www.disclosurediaries.com/)

Concise summaries of the latest official and relevant updates regarding the public disclosure of Non-Human Intelligence, without all the fluff.

CUFOS (The Center for UFO Studies.....founded by J.Allen Hynek) has a wonderful new website! Check it out at the following link:

Christopher Mellon gave a talk at the ECHO conference last weekend in Paris France. He has offered his slide presentation for download at the following site. Definitely some interesting information in the slide deck. I'm hoping we'll hear & see more regarding this conference. Link below:

I'm REALLY REALLY REALLY hoping we'll hear more about The SOL Foundation conference event that is scheduled November 17-19. This one is by invitation only and the website states that videos of the event will be made available at a later date.

Pay attention to what is going on with AARO and Dr. Sean Kirkpatrick. It isn't good. More on this at the meeting and take a look at the links included in the websites above.

### **There are also a couple of upcoming events that might be of interest:**
