

Greetings everyone!

Our next **Roundtown UFO Society meeting** will be held **NEXT Thursday, November 13 @6:00 PM EST** at the American Legion Post #134 in the banquet room (the banquet room door is on the side of the building; it is well marked).

Address: 23363 US-23 S, Circleville, OH 43113

Please feel free to join us and to invite guests!

We discuss numerous anomalous topics.....UFOs/UAP/USOs, cryptids, strange phenomenon, etc. Attendees are welcome to share experiences if desired but it is completely voluntary....no pressure. 😊

For our remote RUFOS members, we're planning to offer participation using zoom. Good news: The big TV in the American Legion banquet room is working again after board replacements. Once again, make your monthly offerings to the tech gods that the internetconnection will remain stable.

If you would like to participate remotely via our zoom connection, please email us at roundtownufo@gmail.com with a request to be added as a member (free) including name and other pertinent info such as address, cell, areas of interest, etc. We will not publish open zoom links due to security concerns.

Thanks to folks who came out for October Skywatch! It was a beautiful evening to gather with friends.

Pete was able to join us remotely for a few minutes to share a few thoughts.

The most notable item I saw that night in the sky was a HUGE bolide descend as we drove home courtesy of the Draconid meteor shower.

Here are a few items you might find interesting that have come up over the last month:

We'll have these and plenty more to cover next Thursday.....

- VASCO Palomar Observatory Project Papers & publication....this short video sums it up well
 - <https://www.youtube.com/watch?v=HJym6n-QuHg>
- 2025 NDAA UAP provisions as proposed earlier this year appear to be dead and Senator Roger Wicker of Mississippi killed it.....and he isn't talking about it.

By the way, take a look at Wicker's top contributor list. You probably won't be surprised.

• **Groklopedia**- hopefully soon to be a complete replacement for wikipedia! Look at ANY wiki article on our anomalous topics of interest to quickly see why it has become the primary source for incorrect, manipulated and biased "information" and most of the control group for wikipedia is completely anonymous. But the BIGGER issue is that it is the first thing that pops up on most web browsers as well as being the core source for most AI. Heed the warning: "garbage in, garbage out"

- You can look for interviews with wikipedia co-founder Larry Sanger to hear how the original intent of wikipedia has been twisted and controlled
