Here are a couple of quick notes regarding significant articles/info that have come out in the last couple of days. We'll discuss these and a number of other phenomonology related topics tomorrow December 14, 2023!

Ross Coulthart interview of Dr. Garry Nolan on &News Australia (came out yesterday):

NewsNation Elizabeth Vargas new interview of David Grusch (December 11):

Whistleblower David Grusch says there is a secret UFO retrieval program at the Pentagon.

Schumer: Credible sources say UAP info kept from Congress:

Also, our RUFOS founder, Pete Hartinger, was invited to the Circleville Rotary Club to do a presentation on UAP. the last week of November. Pete said that the meeting was well attended and he received positive on the subject. Also, Pete has had a number of persons who had shared their experiences with him in the past now state that it is ok to use their names in association with the subject despite having asked to remain anonymous previously. Hopefully that's more evidence that the taboo and giggle-factor that had been so prevasive is starting to subside.....despite the appearance of setbacks with the NDAA UAPDB proposed legislation,

Hope you can join us either in-the-flesh in Circleville or through the miracle of technology!

As always, the standard disclaimer applies.....

That's it for now. Hope to see you at this and future meetings!

Kind regards....
